

THE BASEMENT

Equipment Hire

4 Turner Street, Dudley, West Midlands, DY1 1TX. Tel: 07979 653412

Many bands, soloists and function rooms cannot afford the expense of providing some of the larger items of equipment needed to put on a great show. The Basement has a range of quality equipment for hire at reasonable rates to allow performers to produce the sounds they require.

We can provide a full P.A. System with Mixer Amplifier, Digital effects, speakers, speaker stands, microphones with boom stands and all associated cabling.

We can also offer a range of stage lighting equipment with controller boxes, main & link cables, stands, spot and flood lamps.

The equipment mentioned above can all be tailored to suit the requirements of all small & medium sized venues. Our range and quality of amplification and lighting represents outstanding value for money for venues and performers alike.

Equipment is only available to hire on a daily basis. We would be pleased to advise and quote on the supply and installation of permanent systems.

For a quotation and full list of available equipment ring now
